ABOUT ME

I'm in my first year of university, pursuing my lifelong passion for computers and technology through my studies in IT. When I'm not studying, I enjoy working on personal projects and am eager to explore new learning opportunities.

In addition to my studies and work, I have a variety of interests that help me stay balanced and inspired. I enjoy bouldering, which challenges both my mind and body, and I find visiting galleries and exhibitions to be a great way to immerse myself in creativity. Fitness plays an important role in my routine, and spending time in nature allows me to recharge and gain new perspectives."
